## Appendix C:

### **SAFETY AND ENVIROMENTAL PROTECTION POLICY**

The COMPANY has developed an effective and appropriate "**Safety Management System**" to ensure safety at sea, prevention of human injury or loss of life, and avoidance of damage to the environment, in particular to the marine environment and to the property.

The company objectives are to achieve the highest management standards through adoption of the followings:

- Provide for safe & Secure practices in ship operation and a safe working environment;
- Establish safeguards against all identified risks including Cyber Security threats; and
- Continuously improve safety-management skills of personnel ashore and board ships, including preparing for emergencies related both to safety and environmental protection.

In order to achieve these objectives, the company prepared "**Safety Management System**" documents in accordance with the requirements stipulated in the International Safety Management Code (ISM Code), and has vowed to operate in accordance with the said System. The Company aims are:

- Safe and secure operation of the vessels
- Elimination of all work-related injuries and illness.
- Avoidance of all pollutions and protect the environment, marine & other.
- Comply with all relevant mandatory rules and regulations.
- Maintaining high standards of safety & Security consciousness, including Cyber Security requirements, personnel discipline and individual accountability by adherence to comprehensive and documented system of training.

The Company top management is committed to achieve the highest Safety - Security & Pollution Prevention standards through its faith in the God Almighty, Systematic Approach and by promoting general awareness throughout the Company.

All executives and employees of the Company are expected to comply with Safety-Security and pollution prevention regulations at all times and to take necessary precautions to protect themselves, their colleagues, the ship, its cargo and the environment.
